The following is an examiner's statement of reasons for allowance: The prior art submitted in the IDS of 4/22/2004 has been considered. The references which disclose fuel cells with substrates comprising silicon, Neutzler *et al.*, Ohlsen *et al.*, and Koripella *et al.*, are not filed early enough to be available as prior art for the present application. None of these references disclose a fuel cell with a conductive porous film with a pore diameter of 0.18 to 1 micron or a thickness of 1-20 microns, or with a planar interdigitated array of anodes and cathodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
